

## Check Image Retrieval

Interface to Retrieve Check Images  
from Third-Party Vendors

## Would you like to simplify the way you handle checks from third-party check image vendors?

### BUSINESS VALUE

- Improve Operations

### COMPATIBILITY

- CruiseNet®

As the financial services industry evolves, credit unions are challenged to operate more efficiently at the lowest cost possible. Check Image Retrieval provides a simple, cost-effective, and secure solution that streamlines third-party check image retrieval.

#### IT WORKS LIKE THIS ...

With Check Image Retrieval, check images are conveniently retrieved through the Transaction History screen on a member's account. Once the transaction has been located, the check image is displayed by clicking on the check number hyperlink.

#### WHAT IT DOES:

- Streamlines the retrieval of checks from third-party check image vendors.
- Allows users to search for specific transactions or for transactions within a date and/or dollar amount range.
- Displays checks through a convenient hyperlink.

#### WHAT IT DOES FOR YOU:

- Generates material operating efficiencies.
- Enhances member service and convenience.
- Expedites research by streamlining information access and distribution.
