

Microsoft® Office 365™

Move Microsoft Office to the Cloud for Cost Savings, First-Rate Communication Tools, and Live Support from Jack Henry & Associates, Inc.®

Could your credit union benefit from an enterprise-class, hosted Microsoft Office suite?

BUSINESS VALUE

- Improve Operations
- Save Money

COMPATIBILITY

- CruiseNet®
- Episys®

Microsoft Office 365 opens up a world of possibilities by combining the services of Microsoft Office Professional Plus, Microsoft Exchange Online, Microsoft SharePoint® Online, Microsoft Office Web Apps, and Microsoft's next generation instant messaging and collaboration tool, Microsoft Skype® for Business. No matter the size of your institution, you can have the same features and functionality that large corporations have enjoyed for years.

"No matter the size of your institution, you can have the same features and functionality that large corporations have enjoyed for years."

SAVE ON HARDWARE AND LICENSING ...

All the server-side components of this suite are hosted at a secure SSAE16 and EU-Safe Harbor compliant Microsoft data center, not in your credit union, reducing hardware costs and server administration. In addition, you do not pay site license fees for services like Exchange and SharePoint; you pay a per-seat, per-month fee. This makes the service fully scalable for institutions of any size.

To provide additional flexibility, you can choose different service packages for different employees. The options are:

1. Exchange Standard, includes Exchange, Email, Calendar, Contacts, and Personal Archive;
2. Exchange Advance, offers all the above and Unlimited Archiving and Data Loss Prevention;
3. Enterprise 1, provides Exchange, Email, Calendar, Contacts, and Personal Archive, SharePoint Online, Skype for Business, Online Meetings, Desktop Sharing, Microsoft Office Web Apps, View and Edit Word, Excel®, PowerPoint®, and OneNote®; and
4. Enterprise 3, includes all of the above and Microsoft Office Professional Plus.

SUPPORT AND ASSISTANCE ...

When you acquire Microsoft Office 365 from Symitar, you not only get the same great Microsoft Office products that you use today but you also receive a professional migration and implementation experience, and ongoing live support from Jack Henry. We are intimately familiar with your industry and needs and can provide the high-level, personalized support you are accustomed to.

TAKE A LEAP FORWARD IN PRODUCTIVITY AND APPLICATION POWER

Get increased efficiency and superior response to your members through powerful communications options such as:

- An intranet for quick access to documents, instructions, and resources. (SharePoint Online)
- Instant messaging, online conferencing, and the sharing of screens, audio, video, or a virtual whiteboard. (Skype for Business)
- Employee calendars, email, and contacts available and synchronized on desktop, phone, or tablet. (Exchange Online)
- Collaborative viewing and editing of shared Office documents. (Office Web Apps)
- A full-featured, always up-to-date version of Microsoft Office on the desktop. (Office Professional Plus)

- ▶ Control all of your iPhones and Android™ devices from a webpage, including email management, synchronization and remote controls. (Enterprise Mobility Management)

Note: Symitar can also work with you to build a hybrid customized solution to meet your unique needs.

WHAT IT DOES:

- Hosts all server-side components in the cloud at a Microsoft data center.
- Provides live support from Jack Henry technicians.
- Provides an always up-to-date, enterprise-class Microsoft Office suite on the desktop.
- Provides an intranet for internal document and resource organization.
- Enables messaging, conferencing, and presentations between employees.
- Enables collaborative sharing and editing of Office documents.
- Makes email, calendar, and contacts available and synchronized on multiple devices.

WHAT IT DOES FOR YOU:

- Saves IT costs because cloud-based services are hosted by Microsoft, not your credit union.
- Saves licensing costs by enabling, per seat, per month fees, as well as different package options for different employees.
- Provides unprecedented collaboration and communication between employees.
- Offers multiple tools and services for organizing and presenting information.

Move your Office to the cloud and you'll find the familiar, reliable Microsoft applications you're accustomed to, with the added benefit of powerful collaboration tools and offsite hosting.
