

Classification Scripted FM

Capture classification data in tracking records

BUSINESS VALUE

- Save Money
- Improve Operations

COMPATIBILITY

- Episys®

This product is part of Symitar's Collections Toolkit (CTK). It provides near real-time capture of classification information in a loan tracking record.

IT WORKS LIKE THIS ...

CTK Classification Scripted FM provides an HTML interface that enables users to capture and maintain classification data in a loan tracking record. It creates Loan Tracking and Loan Note records. It enables you to classify all loans at a specific delinquency.

For convenience and efficiency, CTK Classification Scripted FM can produce a classification report, and create a classification .csv extract file for export to Excel®.

WHAT IT DOES:

- Provides near-real-time capture and maintenance of loan classification data
- Creates Loan Tracking and Loan Note records
- Offers the ability to classify loans according a specific delinquency
- Creates a classification report and a .csv extract for Excel

WHAT IT DOES FOR ME:

- Simplifies collections by quickly and clearly presenting relevant data
- Facilitates collections management with reporting and an Excel-friendly format
